A
PETITION
TO THE
SPORTING MINISTER
OF AUSTRALIA

To: KATE ELLIS MP, Head of MINISTRY FOR SPORT, AUSTRALIA

Dear Madam / Sir,

I am joining the campaign initiated by the Official Sport of Slurping (OSOS)¹ in a bid to urge you to recognize Slurping as a legitimate sport in your country by 2010.

You may not be aware of Slurping or the many 'athletes' worldwide who already regularly participate in the sport. But let me assure you that popularity of Slurping is growing exponentially around the globe. Today's youth are passionately embracing this new sport. They are congregating in car parks, on street corners and in bedrooms in groups of 2, 3 or more to see who can consume the contents of a Slurpee the fastest. Here at the O.S.O.S we are dedicated to shining the international spotlight on their hidden talents.

We are asking that you put your departmental support behind our cause. Please do not deprive the people the opportunity to compete in Slurping competitions at a national or international level. Perhaps soon, one of your citizens will experience the glory of being crowned a Slurping World Champion.

As the head of your department you have the power and opportunity to introduce measures that will guarantee Slurping becomes an officially recognized sport in your nation. Now that you have read this, I am confident that you will do your utmost to ensure the sport of Slurping receives the recognition it deserves.

Yours Sincerely

Name

SPORT OF SLURPING

WHAT IS SPORTS SLURPING?

Around the globe competitive Slurping has been going on unnoticed in backyards, bedrooms and 7-Eleven car parks with popularity continually growing in countries like the USA, Canada and Australia. Slurping involves a group of participants trying to drink a frozen beverage, called a Slurpee, as quickly as humanly possible. Click here to see the many unsanctioned competitions that have already been staged internationally.

WHY SHOULD SLURPING BE DEEMED A SPORT?

In our endeavours to officially classify Slurping as an internationally recognized sport we have encountered more than our fair share of unwarranted criticism. It is our belief that Slurping has as much right to be a sport as golf, tennis and curling. I guess the best way to ascertain whether a particular activity is worthy of being deemed a sport is to determine whether a number of core 'sporting' characteristics are present.

According to Honeybourne et al. all sport must:

- contain an element of chance
- involve competition between distinct sides
- involve physically strenuous activity
- have clear winners and losers
- be spontaneous and enjoyable
- use special equipment

Slurping against the clock, against another Slurper or against a previously set record is certainly a competition, and it provides an outcome with winners and losers. The sport of Slurping also requires discipline, determination and stamina. Slurping therefore certainly fulfils the above criteria and can be deemed within reason to be a sport.

Reference

Honeybourne, J., M Hill, and Moors, Advanced physical education, 1996, Cheltenham, UK Stanely Thomes (Publishers) Ltd.

MANDATE:

The OSOS strives to unify the unofficial Slurping events that currently exist in many countries across the globe. Our main goal is the regulation of competitive Slurping, including developing of official rules and safety standards for all participants to follow. Further goals of the OSOS include, but are not limited to, the following:

- to establish a fair and equitable rating system for the various liquid-centric competitions;
- to promote safety measures for participants in the conduct of matches and to ensure that only trained individuals compete in official speed Slurping matches;
- to establish and maintain Slurping records in events sanctioned by the OSOS;
- to compile, categorize and make available to fans of the sport a complete history of competitive Slurping along with an archive of photos and other historic material;
- to coordinate and control sponsorships for televised events; and
- to develop and run an OSOS Slurp-Off, the World Championship of Slurping.

SAFETY STANDARDS:

Safety is the first consideration in any sport, and the OSOS insists that all competitive Slurping matches/events be sanctioned by the OSOS. Meaning they take place in a controlled environment with the proper safety measures in place.

The OSOS will not sanction nor promote any events that do not adhere to the highest safety regulations

The OSOS believes that speed Slurping should only be conducted in a controlled environment with appropriate rules and with an emergency medical technician present.

The OSOS urges all interested parties to become involved in supervised sanctioned events that adhere to the official rules.

OFFICIAL RULES:

The regulation of Sports Slurping is necessary to ensure competitors worldwide participate in fair and controlled contests. Below are the 10 official rules of the Sport of Slurping as determined by the OSOS.

- The core temperature of each competitor's Slurpee must remain between -3°C and 3°C.
- The contents within each competitor's Slurpee cup must at least reach the rim of the cup.
- The official World Championship Slurping Cup is classified as the Large Slurpee Cup with an official rim diameter of 80mm and official height of 165mm.
- The official World Championship Slurping apparatus is the Slurpee 'spoon' straw with an official length of 200mm and diameter of 1.65mm. Only one straw may be used by each individual competitor to compete. Any colour is permitted.
- Competitors must not spill any of the Slurpee contents from the cup. Any spillage must be immediately consumed or automatic disqualification will result.
- Each competitor is allowed one glass (250ml) of warm water. The consumption of all other food substances during competition is prohibited.
- The surrounding air temperature must not exceed 30°C.
- The residual Slurpee liquid remaining in the base of the cup at the end of the competition must be Slurped through a straw, leaving no more than 5ml in order for a competitor to claim completion.
- All Slurpee must be ingested and the mouth must be open and empty for the competitor to claim victory.
- The adjudicator's decision is always final.

02 JUNE 09

IT'S OFFICIAL! SLURPING IS THE WORLD'S NEWEST SPORT.

It seems that the dedicated Sports Slurping lobbyists around the world have had success. A recent document received from the IFOCE (International Federation of Competitive Eating) has expressed interest in the sport of Slurping. After receiving over 900 lobby letters, IFOCE President, Richard Shea, contacted the OSOS and informed us of their intention to draft up plans for an international competition. "We are very intrigued to be exploring a Slurpee circuit with (the OSOS) and are excited at the idea of conducting sanctioned competitions in Australia," Richard has said.

"The world has waited far too long to see Slurping at the professional level and I expect it will be a display of great speed and great courage," he continued.

With the IFOCE working hand-in-hand with the OSOS it shouldn't be long before a world Slurping champion is crowned. Heats could begin as early as next year. So if you want to be a guinea pig in the initial trial stages of World Champion Sports Slurping stay tuned to this site, in the meantime keep practicing. The official time to beat is 51 seconds.

27 MAY 09

MIKE GIVES AUSTRALIA SOME LIP

Mike Lipp is back and he's not happy. The American champ has not wasted any time in replying to Julian Coles' 33 second speed slurping attempt (still under review). Mike has posted an incredible time of 26 seconds. The OSOS has scrutinised the footage taken from you tube and has decided that an official rule breach may have occurred.

Again rule No. 8 has been broken. As stated 'the residual Slurpee liquid remaining in the base of the cup at the end of the competition must be Slurped through a straw, leaving no more than 5ml in order for a competitor to claim completion'. Although leniency has been granted in some cases in the past the OSOS is now tightening up on its regulations.

It is recommended that all future competitors should review the official rules before their next sports slurping event.

25 MAY 09

UNOFFICIAL INTERNATIONAL CHAMPIONSHIPS UNDERWAY

The challenge set down by US Speed Slurping champ, Mike 'The Lips' Lipp, has caused quite a stir among athletes in the Slurping world. Attempts to beat the 51 second record have already come from the countries of Australia, Canada and Japan.

Julian Cole from Australia is claiming victory with an almost inconceivable time of 33 seconds. The OSOS is currently investigating the attempt based on an official rule breach. According to OSOS ruling No. 8 'the residual Slurpee liquid remaining in the base of the cup at the end of the competition must be Slurped through a straw, leaving no more than 5ml in order for a competitor to claim completion'.

If you would like to make a comment on the situation while we deliberate please review the Australian Speed Slurping attempt first and contact us at lobby@sportsslurping.com.

01 MAY 09

Mike Lipp has been named the new unofficial champion of speed slurping (taking the crown from Erik) with a recorded time of 51 seconds! This almost unbelievable feat was captured on video and uploaded onto YouTube. Mike, from the USA, has put out the challenge to all other countries to beat him. This is now the time to beat.

The OSOS contacted Mike and asked him how he manages to stave off obstacles such as brain freeze and this is what he had to say:

"Hi, I am Lips the guy in the video and just to clear all the rumors I don't get brain freeze just my stomach and throat get really really cold so after I do the slurpee chug I have to get my blood flowing hence the way I walk off in the end of the video"

A true Sports Slurping champion!

10 FEB 09

NEW PB FOR LOBBYING NUMBERS

Today the number of lobby attempts reached the 5,000 mark. Members and non-members have passionately embraced the cause. So far the most lobbied countries include Australia, Canada and New Zealand. Australia's individual tally currently sits at 1,154 with Canada closely behind producing a tally of 874. These are extraordinary numbers considering the population per square metre in these countries.

29 JAN 08

UNOFFICIAL RECORD TIME

The OSOS has uncovered the world's fastest Slurping time. After carefully scrutinizing footage discovered on youtube (<http://www.youtube.com/watch?v=i0Xy5K8-efk>), we have officially ruled that the time of 2.30 minutes achieved by Erik on the 24 of January 2008 is the fastest recorded Slurping time for the consumption of a 40 Oz Slurpee. A 10 second penalty has been awarded for his dual straw has brought this time to 2.40 minutes. A further penalty for 'chugging' a significant portion of the contents means the official time has been lodged at 2.50. This is still an impressive effort. Congratulations Erik!

30 OCT 07

OFFICIAL RULES OUTLINED

The Official Rules of the sport of Slurping have finally been drafted. It is important to regulate Sports Slurping to ensure that competitors worldwide participate in fair and controlled contests. The 10 official rules as determined by the OSOS are as follows.

- 1.The core temperature of each competitor's Slurpee must remain between -3oC and 3oC
- 2.The contents within each competitor's Slurpee cup must at least reach the rim of the cup
- 3.The official World Championship Slurping Cup is classified as the Large Slurpee Cup with an official rim diameter of 85mm and official height of 165mm
- 4.The official World Championship Slurping apparatus is the Slurpee 'spoon' straw with an official length of 200mm and diameter of 1.65mm. Only one straw may be used by each individual competitor to compete. Any colour is permitted
- 5.Competitors must not spill any of the Slurpee contents from the cup. Any spillage must be immediately consumed or automatic disqualification will result
- 6.Each competitor is allowed one glass (250ml) of warm water. The consumption of all other food substances during competition is prohibited
- 7.The surrounding air temperature must not exceed 30oC
- 8.The residual Slurpee liquid remaining in the base of the cup at the end of the competition must be Slurped through a straw, leaving no more than 5ml in order for a competitor to claim completion
- 9.All Slurpee must be ingested and the mouth must be open and empty for the competitor to claim victory
- 10.The adjudicator's decision is always final

15 JULY 07

THE OFFICIAL OSOS LAUNCH

Welcome to the OSOS (The Official Sport of Slurping). The Official Sport of Slurping is a coalition of world youth dedicated to the international introduction of Slurping as a legitimate sport. Our recent formation will hopefully bring attention to the thousands of young people currently engaged in the 'underground' sport known as Slurping. No longer shall they be shunned by the athletic community. It's time to give them the recognition they deserve.
